

A Healthier Heart

Oroville Hospital is proud to welcome
Dr. Michael Johnston
to its cardiovascular department.

Originally from Omaha, Nebraska, Dr. Johnston brings a fresh look at interventional and preventative cardiology to Oroville Hospital. Utilizing the newest technologies and updated approaches such as echocardiography, stress testing, and research in the effects of diet and lifestyle on cardiovascular health, Dr. Johnston is able to chart a path to a healthier future for his patients. In the fight against cardiovascular disease, timing is everything; make an appointment and give your heart a fighting chance.
